

# Lake Sawyer South Paint Schemes

## **ASHTON WOODS REPAINTS:**

For those homeowners with original paint colors on Ashton Woods homes, you may choose from these original paint schemes.

Please note that you must check the attached “elevation” file to correctly assign the paint according to the color code based on your home elevation.

Keeps these tips in mind:

- 1) **All house painting requires pre-approval** by the Architectural Review Board. Please submit an application for approval before starting your paint job.
- 2) Homes must be painted **according to the color schemes presented here**. Mixing and matching is not permitted.
- 3) Color Schemes include Trim, Body, Secondary Body and Accent or Door Color. Not all homes models will have a Secondary Body color.
- 4) All applications should **include a diagram** or picture of your home clearly indicating where each color in the scheme will be applied.
- 5) **Color may differ** slightly from photos due to different monitor or printer settings. We recommend you visit Sherman Williams or your painter to **see a paint chip** before making your final selection and submitting your application.
- 6) Color Scheme choice cannot match those on neighboring homes.
